Summary

I'm Ehsan Jahanara, a web developer with over 5 years of experience in designing, developing, and maintaining web applications. My expertise spans PHP, Laravel, WordPress, and front-end technologies like JavaScript and jQuery. I thrive on solving complex problems and building scalable, user-centric solutions. Passionate about delivering high-quality code, I collaborate effectively with teams to create impactful digital experiences. Based in Tehran, Iran, I'm seeking new challenges to grow my skills and contribute to innovative projects worldwide.

Work Experience

<ul style="list-style-type: none">• Delivered custom WordPress e-commerce and logistics sites, improving client satisfaction by 50%.• Built Laravel tracking platforms for shipping, optimizing operations for 100+ users.	

Projects

The School Of Iran, Wordpress [↗](#)

This website is a charitable website with a PayPal donation gateway, allowing Iranians worldwide to contribute to building schools in Sistan and Baluchestan, Iran. The site is fully customized without using a pre-made theme, and its one-page design was built with Elementor.

Topialand, Wordpress [↗](#)

I've built a Wordpress ecommerce project for Topialand same as their Shopify, I have Customized Betheme Template and Translate and made it compatible with Persian Language

QooBox, QooStudio - Laravel [↗](#)

In my role on the QooBox project, I was instrumental in developing a dashboard system for agents. This system empowered agents to efficiently assign locations to clients, submit worksheets, and manage unit allocations. Leveraging Laravel, I designed a user-friendly interface that streamlined their tasks and improved client services. This project showcased my ability to create practical solutions that simplified intricate workflows, ultimately boosting agent productivity.

Cornerstone, QooStudio - Laravel [↗](#)

My role on the Cornerstone project was help developing a three-sided platform. We customized Laravel Nova for administrators, created a streamlined dashboard for agents (similar to QooBox). This project showcased my ability to tailor solutions to specific user needs and maintain efficient communication across the platform.

Riptide Magazine, Shakewell Agency - Laravel [↗](#)

During my time at Shakewell Agency, I worked on the Riptide Magazine project, an Australian publication dedicated to bodyboarding. I developed the platform using Laravel and integrated Stripe for secure subscription payments, ensuring readers had easy access to premium content. This project combined my technical skills with a passion for niche content delivery.

OMP - Optimize Mind Performance, Shakewell Agency - Laravel [↗](#)

I played a crucial role in the development of Optimize Mind Performance (OMP), a mental skills training platform. OMP provides access to content from renowned mental performance coaches and elite athletes worldwide. My contributions included building the backend endpoints and customizing parts of the Laravel Nova for the dashboard. I also wrote feature and unit tests to ensure the platform's reliability and functionality.

Education

Bachelor in Software Engineering, University Of Science and Culture

2020 – 2023
Tehran, Iran

Skills

PHP | **Python** (Socket, Scapy, Beautiful Soup, Selenium) | **Laravel** (Nova, Passport, Blade, Scout) | **Software Knowledge** (OOP, Solid, ORM, MVC, Design Patterns) | **Database** (MySQL, MariaDB and Redis) | **Server Knowledge** (Linux, GitHub CI/CD, Docker, Nginx, Apache) | **Testing** (PHPUnit, Pytest) | **JavaScript** (jQuery and Vue.js) | **Wordpress** | **HTML** | **CSS** | **Git**

Languages

English

Highly proficient in speaking and writing
